

HARDING INSISTS PRESIDENT ALONE HOLDS UP TREATY

Tells Republicans That Party Welcomes Responsibility Of Americanizing Peace Treaty

OFFERS PLATFORM PLANKS

Plays Wilson at State Rally In Columbus Monday.

Senator Says Must be No Return To Pre War Levels

(By Associated Press)

Columbus O., February 23.—Declaring that the Republican Party "will welcome the responsibility of Americanizing the peace treaty," United States Senator Harding, at a rally of his home state Republicans here today held President Wilson solely responsible for the Senate's delay in ratifying the treaty.

"Essentially alone, he negotiated the surrender of American nationality; and still essentially alone, one in a hundred million, blocks its final disposition," Harding said.

While Democratic senators from the South generally have supported the President in his stand, Harding said, the people of the south are for protecting America's rights.

Following Jefferson, who opposed a strong federal power, Harding declared, "his most eminent successor and his followers of the present day have sought insistently and almost obstinately to rend our nationality and merge us as a compliant or suppliant state in a super government of the world."

Harding enumerated a number of things which he declared the Republican platform should contain. Among them were:

Perfect Americanization, to be held "rejoicingly American hereafter."

Adequate national defense, with an ample navy as a first line of defense, world leader in aviation, stronger army than heretofore and voluntary military training for young men.

Repeal of every extraordinary war statute.

Ending of bureaucracy "crowned with autocracy."

Opposition to government ownership and nationalization of industry.

Curbing of government extravagance and "get to thinking again in millions instead of incomprehensible billions."

Government subsidy for the merchant marine.

Declaring elevated scales of life and higher rewards for workmen to be the surest index to advancing civilization, he said there must be no return to the old pre-war levels.

8,000 TEACHERS HOLD MEETING

Full Military Honors Accorded Rear Admiral Robt E. Peary

Ceremonies in Charge Of The Navy Department.

(By Associated Press)

Washington, February 23.—The body of Rear Admiral Robert E. Peary discoverer of the North Pole, was laid to rest in Arlington National Cemetery today with full naval and military honors and with high officials and officers of the government and diplomatic corps present to pay last tribute to the world famous explorer.

The casket was carried to the cemetery on a gun limber draped in the national flag which Admiral Peary raised at the North Pole.

Because of the big naval rank bestowed on Admiral Peary with the thanks of Congress for his achievements, the ceremonies were in charge of the Navy Department.

RESERVE BOARD ANNOUNCES PLAN

(By Associated Press)

Washington, February 23.—Determination of the Federal Reserve Board to exert the full power of the reserve banking system in regulating and controlling the credit situation—a course designed to aid commerce and industry in restoring a pre-war equilibrium—was disclosed in the board's annual report made public today.

With this as its announced peace time policy the board was prepared to "test the ability of the system to check expansion and to induce healthy liquidation."

RAILROAD MEASURE ASSAILED BY UNION

Will Probably Insist Upon Veto Because of Labor Provisions

SAY PROGRESS DESTROYED

Secret Sessions Held in Washington Monday Afternoon

(By Associated Press)

Washington, February 23.—President Wilson's proposal for settlement of the railroad wage controversy and the compromise railroad bill pending in the senate was bitterly assailed in the conference today of the railroad union officials and grievance committee men who were called to Washington to discuss the settlement policy laid down by the president.

Indications were that a strong element perhaps a majority of the union leaders, would demand that railroad labor stand together in an appeal to the president to veto the Cummins-Each measure because of its labor provisions.

Many regard it as destroying all progress made during the negotiations with Director General Hines toward a settlement of their demands for higher pay.

Representatives of the 15 organizations concerned in the settlement proposal met in secret session in as many different halls. Their purpose was to formulate their own views by majority rule and later meet in general conference. Heated arguments were admitted to have developed in practically every meeting.

The committee was divided on the proposal to shut off the use of gas to industries.

U.S. AGENTS ARE ON WAY TO ARREST OFFICIALS

Rebellion Against Federal Authority in Michigan To Be Handled With Iron Hand

THIRTY ARMED AGENTS

Federal Warrants For County Officials to be Issued

(By Associated Press)

Chicago, February 23.—Major A. V. Dalrymple, federal prohibition commissioner for the Central States received word this afternoon that telegraphic authorization for him to lead an armed expedition of United States agents into upper Michigan peninsula had been sent from Washington.

Dalrymple with about 30 men will leave Chicago tonight for Negaunee, Mich., where they will be joined by a troop of Michigan state constabulary.

Dalrymple stated that the expedition would seek to "clean up" Iron county and arrest county officials at Iron River who are said to have interfered with Federal liquor raid last week.

It was said that Federal warrants probably would be issued for arrest of the Iron County Prosecutor, two deputy sheriffs and the chief and captain of police at Iron River on charges of conspiracy to obstruct the prohibition law.

SEIZURE OF LIQUOR IS FOLLOWED BY REBELLION

County Officers In Michigan Take Confiscated Liquor From Owners. Federal Agents to Stage a "Clean Up."

(By Associated Press)

Chicago, February 22.—A "rebellion against prohibition" has broken out in Iron County, Michigan, and the county, led by its prosecuting attorney, is in "open revolt" against federal authority. Major A. L. Dalrymple, federal prohibition director for the Central States notified Washington today.

Prohibition agents and a party of Michigan state constables were held up February 19 by Iron county officials and wine they had confiscated taken from them, according to word brought to Chicago today by Leo Grove, of Marquette, supervising prohibition agent for the upper peninsula. Major Dalrymple appealed to Attorney General Palmer to order warrants issued for arrest of the prosecutor, two deputy sheriffs, two police officers and three other residents of Iron River, a mining village.

While awaiting word from federal authorities Dalrymple issued order for a company of picked prohibition agents to gather here tonight preparatory to starting tomorrow on an armed expedition which, he declared, will "clean up" Iron County.

Grove, accompanied by Lieutenant R. G. Stroppe and troopers of the state constabulary seized eleven barrels of wine at a mine two miles from Iron River, he reported to Major Dalrymple today. The wine is said to have been made by three wealthy Italians who owned several business ventures at Iron River.

Grove loaded the liquor into a sleigh and started to move it to Casplan, headquarters of the state constabulary in that section.

When the sleigh reached Iron River it was met by Prosecuting Attorney P. A. McDonough, Deputy Sheriffs Chard and Jesse Allen, Police Chief C. H. Sensiba and Police Captain Claude Brown.

McDonough, according to Grove's report, told the prohibition supervisor that he was "under arrest for transporting liquor and ordered his men to seize the wine. Grove put up a fight but was overpowered.

The wine, he says was returned to the Italians by McDonough, who the report adds, told the brothers to post an armed guard over it with orders to shoot if the federal agent tried to regain possession. The wine tested 14 per cent alcohol.

(By Associated Press)

Washington, February 22.—State and district prohibition authorities have ample authority under the Volstead act prohibition enforcement act to deal with the "rebellion against prohibition" in Iron County, Michigan, Department of Justice and Internal Revenue Bureau officials said tonight.

NEIL HOUSE THRONED

Harding Headquarters Packed With Admirers of The Party Leader.

Women Delegates Take Active Part in Big Pow-Wow.

(By Associated Press)

Columbus O., February 23.—Buoyant with hopes of republican success both in the nation and state this fall, republican leaders from every county heading delegations of party followers held mass meetings here today, heard addresses by party leaders, by party candidates and perfected plans of organization.

Not in many years has the old Neil house, from time immemorial headquarters of political gatherings, been so jammed with politicians and party followers. More than a score of headquarters from Presidential candidates down were opened and a continual stream flowed in and out.

Senator Harding's headquarters were the principal attraction. The Senator was on hand early greeting personally all comers. Though the headquarters of General Leonard Wood nearby were open the General was not present and consequently there was little activity there.

Headquarters of gubernatorial candidates were lively places. Home-town delegations headed by bands went about boosting favorite sons.

The scenes enacted were not altogether as in olden times because there was a new element commanding practically as much attention as the various candidates—the women. They mixed freely with the men.

The principal feature of the gathering was the general mass meeting this afternoon in Memorial hall at which Senator Harding, Chairman Hays and others spoke.

TWO FORMER GOBS RE-ENTER SERVICE

Two young men of this city who served during the World War in the United States Navy, have re-enlisted again in the service. Charles Meyer, who saw active service in foreign waters, and who was discharged last summer, and Fred Beck, who served for many months on this side, went to Cincinnati Saturday evening and re-enlisted for a two year period.

Young Meyer was formerly discharged with the standing of second class fireman, while Beck served as Yeoman.

The two young men are the first to re-enter the navy from this city after being released from active service.

SIDEWALKS AND STREETS MUDDY

Not in the past two years have the up-town streets, crossing and sidewalks been in such unsightly and unsanitary condition as at the present time, and it is believed that the unsanitary condition of the streets may result in spread of disease unless something is done to cleanse them without delay.

The long period during which it has been next to impossible to clean the streets has left a large collection of filth which has been tracked and re-tracked upon the sidewalks until they are covered with mud.

ACTION TAKEN TO GET TRUCKS

At a joint meeting of the county commissioners, county road superintendents, township trustees and township road superintendents held Saturday noon in the Cherry dining rooms called by County Surveyor F. M. Kennedy, road matters were taken up and discussed from every angle.

Each township made application for one or more of the government trucks with which the roads will be worked in the absence of teams. The trucks are former government trucks distributed to the states and then given out to the counties.

The county must bear the expense of remodeling the trucks into self-dumping vehicles.

Various other matters were discussed.

Prosperity And The Home

One of the best antidotes for the social and business unrest—now epidemic—is the acquisition of homes.

A man who loves home life—and few men do not—a man who has a home, or is laboring to the end that he may have one, is either too busy or too well content with his lot to stop and whine about how badly the world is treating him.

And where you have a community in which there is a majority of such men, you have an industrious, progressive community at peace with itself and the world and one which prosperity cannot but endure.

The home builder is the solid constructive citizen. He builds for his town as he builds for himself.

The mal-content the chronic striker, the firebrand is of a different sort of clay than the home-builder. He is generally dissatisfied not because the world doesn't treat him right, as he would have us believe, but because he doesn't treat himself right. He sees nothing in his future because he has laid the foundation for nothing.

The homebuilder is the man who has a definite purpose in mind—the establishment of a hearth that is his own, be it a cottage or a palace. This kind of man is not discontented because he is working toward an end. He is not interested in strikes unless there is a definite moral issue involved, because, being a reliable and consistent workman, his employers cannot afford to underpay him if they would.

Homes make good towns and good men. And a man who strives to own a home, profits doubly in that he acquires not only a home but a self confidence that spells his success as a human being.

There is reason to believe that Washington C. H. is about to enter upon one of the greatest home building programs in its history and which will work the beginning of a new era of prosperous advancement.

A Welcome Gift

The American Forestry Association is doing a necessary and practical act of kindness in collecting an enormous quantity of American forestry seeds, mostly spruce, to aid in restoring the destroyed timber of England, Belgium and France. Enough to propagate millions of trees has already been collected and it is the present expectation to double this amount.

This is truly pouring "little seeds of kindness" into countries whose splendid forests have been their glory and to provide for their propagation will furnish a hundred years from now a living monument of the friendship between these nations—a friendship "born of war and baptized in blood."

The necessity of this gift to Belgium and France is more easily understood by Americans than England's need.

While France has half an acre per head of population in forests, the United Kingdom has less than one-tenth of an acre per head. Aside from the every day economic loss to Great Britain during the war in her small forest resource, there was additional drain even upon that scanty resource. France, becoming exhausted, owing to lack of labor, the British had to provide themselves from their own forests with wood for their army's military purposes.

The British were ready for the sacrifice, and, limited as was their forest resource, that sacrifice was great. Many private owners felled their timber and offered it for sale to the Government. The greatest landowner in England, the King, was equally prompt, and the Crown woods produced great amounts of timber.

To cut down this timber England had to appeal overseas, the available labor having been absorbed in the army, and great acres laid bare by Canadian cutters and sawmills may be visited today.

The signing of the Armistice was all that saved England from the loss of practically all her principal forests.

The gift of the seeds which will put back the forests of these three countries is one which will be appreciated by the generations to come even more than the grateful recipients of today.

POETRY FOR TODAY

SPRING COMES

Is there a poet who doubts that spring
Comes only at his signaling?

That hidden grasses crouch and tremble
Till he has bidden them assemble?

That willows wait until his call,
And trees would show no green at all

Unless he blew his reveille,
To rouse and cheer the company?

Until he speaks, peach buds stay
Curled;
And purple garden flags are furled.

But at his word the eye can see
The green and gorgeous tapestry.

The violet, the clustered daisies,
The rose that reddens till it blazes!

Thus poets order in the May,
All men are poets, some will say.

Is there a man who does not know
Spring comes when he will have it so.

Olive Tablets

To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days, you must keep your body free from poisonous wastes. Dr. Edwards' Olive Tablets (a vegetable compound mixed with olive oil) act on the liver and bowels like a magnet—yet have no dangerous after effect. Take one nightly and note results. They start the bile and overcome constipation. That's why millions of boxes are sold annually. 10c and 25c.

This Man Who Indorses Vola-Tonic Knew Cincinnatti As a Village

When James Dryer, 425 Clinton street, Cincinnati, O., gave a statement about Vola-Tonic for publication recently the entire city of Cincinnati was interested.

Mr. Dryer, who is 93 years old, moved to Cincinnati in 1835 and knew that city as a village of about 2,000. He probably is one of the oldest residents of Cincinnati now living and everybody was interested in what he had to say about Vola-Tonic.

Stating that Vola-Tonic had made him feel years younger, Mr. Dryer went on to explain his case fully.

"Unfortunately, I had influenza last winter and had not been strong since," Mr. Dryer said. "My vitality was low due to my age and the influenza further weakened me. I couldn't sleep well and was very nervous at times. Vola-Tonic has built up my system all over, and has made me feel years younger. I can walk two miles to the city library and back without any rest."

"I think Vola-Tonic is excellent for elderly people and for anybody else who needs more strength."

There's wisdom in the words of a 93-year-old man. Years before most of us were here, James Dryer was studying conditions and accumulating knowledge. You can have faith and confidence in what he says. And he says: "Vola-Tonic is excellent for anybody needing more strength." If you are weak and run down get Vola-Tonic—TODAY.

Vola-Tonic, "Builders of Strength" is being specially introduced in Washington C. H., at Frank Christopher's and in Jeffersonville by J. B. Davis.—Advt.

IS FEELING LIKE
OLD SELF AGAIN

Railroad Man Wasn't Exactly Sick
But Felt Tired and Worn Out
All The Time.

"I was in a badly run-down condition when I started taking Tanlac, but after taking only 2 bottles I am feeling like my old-time self again," said Albert F. Smith, 517 Elm street Toledo, Ohio. A brakeman on the Toledo-Ohio Central Railroad, recently. Continuing, Mr. Smith said:

"While I was not exactly sick, I was so badly run down for some time past that I just felt tired and worn out all the time and not like doing anything. My appetite was nothing like as good as usual, I did not relish what I ate and it did not agree with me. I had no ambition and was sluggish and my work tired me so when I came in off my run on the road that I felt all fagged out and did not feel like going out of the house or doing anything but sitting down or going to bed."

"I had been reading so much in the newspapers about the good Tanlac was doing others that I decided to give it a trial, and it surely went right after my case in a hurry. Before I had finished the first bottle I noticed I was getting back to my former good condition. Now my appetite has returned and I can eat anything I want and all I want without feeling any bad after effects. I am completely over that tired, wornout feeling and come off the road after a hard day's work without stopping. I am gaining in weight so fast my clothes are getting too tight for me. I am going to take a few more bottles of Tanlac, just to be sure I don't have a return of my troubles. It is surely a grand medicine and I advise everybody who feels as I did to take it."

Tanlac is sold in Washington C. H. by C. S. Haver.—Advt.

Starting Battery Service

Investigate our service, compare it with what you have had, and judge it from your own standard of service. Come and see the most modern equipped plant in this locality. Come where SERVICE is the first requirement, where YOUR satisfaction is the first consideration.

It doesn't make a particle of difference what battery you have, or what the trouble is, you will learn the truth here. We want you to learn it from us first hand. And that's the way you want it, too.

Our cost is kept high enough to maintain our quality; but our charges are as low as the quality of our work will permit, and in the end is cheap indeed—and the cost is the same to everybody. We are expecting a portion of your patronage.

FARM NOTES

Favors Conveniences to Keep Boys on the Farm.

"It is especially important that farmers should have water systems, heating systems and lighting systems in their homes and adequate rural institutions for providing a satisfactory social life, in order that they may be content to remain permanently in the country." This is what H. C. Taylor, chief of the office of farm management of the U. S. Department of Agriculture, told Farmers' Week visitors at Columbus.

"The saving of a life time on a farm, should not be expended upon building city homes instead of building country homes, and that as soon as people have secured a competence and are in position to have the leisure which would enable them to take an active part in developing an adequate country life they should not abandon the country and go to the city, thus impoverishing country life."

Here's What to Do for Fly-Ridden Wheat

Reports indicate much early sowed wheat which has been badly damaged by the Hessian-fly will probably be plowed under. Such plowing, say entomology and crops specialists, should be at least six inches deep and a jointer used on the plow in order to turn the infested plants to the bottom of the furrow. This should be done if possible before April 1 in northern Ohio, and April 15 in northern Ohio. If done before that time the "flax-seeds" of the fly will be buried before the adults of the spring brood emerge to lay eggs. Experiments have shown that very few of the adult flies are able to reach the surface when such land is well plowed and leveled.

Phosphate and Lime for Corn and Oats

Knowing that corn receives much manure and usually follows clover on well managed farms, a logical investment, says Professor Elmer E. Bear of the Soils Department of the Ohio State University, is in a larger application of phosphate. On farms that have been poorly managed, a mixed fertilizer can undoubtedly be used with profit. He says that until such time as the price of potash is materially reduced, it would appear that it is wise for the farmer to invest liberally in limestone, phosphate and clover seed.

COUNTY ROADS IN BAD SHAPE

Not in recent years have the highways of the county been in such a deplorable condition as at present, and some of the main roads in Fayette county are almost impassable, unless they are roads which have been built in the past few years.

The continued wet weather and thawing, together with an increased amount of traffic over that of previous years, have caused the roads to give way in an almost unbelievable manner, with the result that a few more days in many places it will be virtually impossible for a machine to go through the mud.

Mile after mile of some of the roads are in such condition that the greater part of the way may be run through ruts filled with water, or if a machine tries to negotiate the road outside of the ruts, additional ruts are left and the road further damaged.

The great need of the roads is more crown in order to get rid of the water that is standing, in some places, entirely above the surface of the roads. It is the water standing and steadily soaking into the body of the road that results in the surface going to pieces in short order.

Those who do not have urgent business over the roads will escape a trying ordeal by not attempting to negotiate them.

MAKE DISSOLUTION OF PARTNERSHIP

The partnership of Dr. R. M. Hughey and Dr. P. E. Decatur, eye, ear, nose and throat specialists, has been dissolved on account of Dr. Decatur's decision to leave the first of the week for Hamilton, O., where an exceptionally fine opening in the line of his specialization has presented itself.

Dr. Decatur has been a member of the local medical fraternity for the past ten years and the severance of these relations is attended with no little regret on the part of both his colleagues and his clientele. After a number of years of general practice Dr. Decatur took up his present line of special work and following the receiving of his discharge as First Lieutenant in the Medical Service, took post-graduate course in Chicago. He is well equipped to take up his chosen work in the larger and promising field to which he now goes and possesses the added advantages of personal qualifications which have made for him many friends in both social and lodge affiliations in this city.

Dr. Decatur will open his offices for the practice of the eye, ear, nose and throat in the Jefferson-theater building in Hamilton the first of March.

A wrong impression concerning Dr. Hughey's local practice seems to have been created. Although since the first of September Dr. Hughey has been and is now associated with Dr. Edward Lauder in Cleveland, he retains his offices here and divides his time equally between his practice here and in Cleveland, in alternate periods of two weeks.

Dr. Lauder is one of the foremost specialists of the state as well as of Cleveland and his practice has grown so heavy that his health demanded an associate. His choosing of Dr. Hughey, largely through their study together in the hospitals of Europe and later professional recognition, is a decided recognition of Dr. Hughey's high professional standing.

Dr. Hughey left Monday for a two weeks stay in his Cleveland offices and will return on the 6th of March to open his local offices. In his absence his offices here will be in charge of Mrs. Margaret Gibson, who will take care of all repair work and make for him future appointments.

GRANDMOTHER KNEW

There Was Nothing So Good for Congestion and Colds as Mustard

But the old-fashioned mustard-plaster burned and blistered while it acted. Get the relief and help that mustard plasters gave, without the plaster and without the blister.

Mustard does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders, and yet does not blister the tenderest skin.

Gently massage Mustardole in the finger tips. See how quickly it brings relief—how speedily the pain disappears.

Use Mustardole for sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia).

30c and 60c jars; hospital size \$2.50.

Young Girls Made Strong

Mother tells how Vinol, our Cod Liver and Iron Tonic, built up her daughter.

Belvidere, Ill.—"My daughter was so weak and run-down that she had fainting spells and headaches. My druggist recommended Vinol, and the result was that her health and strength were built up very quickly by its use, and I hope my statement will convince other mothers of what Vinol will do for their little ones who are weak, run-down or delicate."—MRS. JOHN LEWIS.

The Beel and Cod Liver Peptones contained in Vinol aided by the Iron and Hypophosphites quickly restores the appetite, aids digestion, makes rich, red blood and creates strength.

NOTE—Your leading druggist has for many years specially recommended Vinol because the full formula is printed on labels. Your money back if it fails.

BURNS FATAL TO SMALL BOY

As a result of burns which he sustained Friday, William, the six year old son of Mrs. Anna Orhood of Yeoman street died at one o'clock Sunday morning. The child was horribly burned when his clothing caught fire from a fire brand with which the little boy and his brother and sister were playing while the mother was visiting neighbors.

Besides the mother a younger brother, Philip, and a sister are left.

Funeral services will be held at ten o'clock Tuesday morning at the home. Burial will follow in the Washington cemetery.

FORD AUTO STOLEN SATURDAY EVENING

A Ford touring car owned by Herschel Plummer was stolen from in front of the Odd Barber shop Saturday evening about 6:30 o'clock and up to Monday no trace of the missing machine had been found. A reward of \$25 has been offered for information leading to the return of the machine.

The auto bore 1919 license No. 65529, was a 1920 model, and the engine number was 3349,775.

The machine had been left by the owner a short time before and when he returned to get it the theft was discovered.

INFLUENZA WEAKENS THE BLOOD

Breaks Your Vitality—Leave You Helpless When Exposed to Other Germs.

THESE ARE DANGEROUS DAYS

If in Doubt About Your Blood Take Pepto-Mangan, Famous Red Blood Builder.

If you are just recovering from a fight with the 'Flu', it will be weeks before you're really out of danger.

Your blood has exhausted its strength—it is in no condition to fight off other disease germs it may be exposed to. That is why doctors advise staying away from crowds as long as possible.

You can help your blood get back its strength—its stability to fight off disease—by taking that splendid tonic Pepto-Mangan.

The famous blood builder will supply the iron and other properties your blood lacks and help you regain your old time vigor and enthusiasm.

Get Pepto-Mangan today. It may be had at any drug store in either liquid or tablet form. Make your own choice as to liquid or tablet. They are exactly the same in medicinal value. Take which ever you prefer.

But be sure you get the genuine Pepto-Mangan. Ask for "Gude's" and be sure that the name is on the package.—Advt.

GREENFIELD HIGH BEATS BUCKSKIN WINS TOURNEY

Final Game Packs Auditorium Saturday Night and Buckskin Was Out Played.

Washington Eliminated In Hard Fought Game And Loses The Cup.

After winning six consecutive games four in the class B tournament and two in the class A tournament, Buckskin was defeated by Greenfield High School in the finals Saturday night 14 to 33.

McClain High gets possession of the trophy cup for the first time in the four years that the tournament has been held.

Formal presentation of the cups was made by Irvin Dunlap after the game. The cup offered for the championship of Class B was given to Buckskin and the championship cup was handed to McClain.

Washington High School was eliminated from the South-central Ohio Basketball Tournament and all claim to the championship this year by Buckskin High in the first game Saturday afternoon. It was the closest played game of the big tourney and but two baskets decided the winner. Buckskin taking the long end of the 29 to 25 score.

Washington easily outplayed their opponents in the first half and led at the end of the session, the score standing 20 to 12.

O-112

BACK SO PAINFUL COULDN'T STAND TO WEAR HER CORSET.

Sandusky lady had to be helped up and down in bed because her back was so weak and full of pain.

HEADACHES DAILY

Felt tired and draggy every morning, but Dreco has overcome all this and she now attends to her duties.

"I had such terrible backaches that I couldn't wear a corset for the pressure was more than I could bear, even though I felt the need of the support it gave me," said Mrs. Jennie Mai Walker, of 176 E. Water St., Sandusky, O.

"My kidneys were in bad shape and I frequently had to get up several times during the night. My stomach was deranged for indigestion troubled me daily. My bowels were bound up and I had headaches every day, especially in the morning, when I'd get up feeling tired out and had those dragging pains. I had a spell and they had to help me up and down in bed on account of the pains in my back. I lost weight and got so weak I could not attend to my housekeeping.

"A friend told my husband to get some Dreco for me, which he did and I began taking liberal doses, which got my bowels moving and cleaned a lot of stuff out of me. My kidneys got better so that I did not have to get up during the night, and all the pain in my back disappeared. My food digested better, with no gas or pains in my stomach; I began to gain my weight back; my appetite increased; I slept sound every night and on waking I'd feel fresh, with no headaches. I take long walks now and don't grow tired; am keeping my house again, and even washed and ironed last week. Dreco has been a blessing to me, and I gladly praise it."

All good druggists sell Dreco and it is highly recommended in this city by Frank Christopher, Druggist

Buckskin High came back strong in the second half and by exceptional guarding and basket shooting held the Blue and White to five points while the boys from South Salem totaled the score made by Washington and added the two goals that gave them the right to clash with Greenfield in the evening for the championship in the closing moments of play.

In the second game Greenfield and Chillicothe played the last of the semifinals. Chillicothe failed to show against the McClain team in the manner that the Ross county men had eliminated Hillsboro the evening and went down to defeat before the rushing attack of their opponents in a one-sided game of 18 to 39.

By elimination McClain High and Buckskin had proved runners up in the tournament and were ready to fight for possession of the championship and the trophy cup Saturday evening.

When the cups were presented by Mr. Dunlap the winning teams of the class A and class B tournaments were lined up on the floor. Buckskin was first presented with the trophy cup of the class B games, and there was prolonged applause when captain Harold stepped forward to receive the cup. Buckskin was winner of class B last year and also runner up in the finals, being beaten out by Washington High. The members of the Buckskin team on the floor were: L. Harold, H. Harold, Strots, Tudor, and Wright.

The seven members of the McClain team, Hyatt, Bruch, Buck, Whitaker, Robinson, Smith and Bungardner, were lined up to receive the cup for Greenfield. Greenfield rosters surged on the floor and carried the champions to the dressing rooms.

Three teams are now eligible to take the cup permanently next year: Washington, Hillsboro, and Greenfield have won the cup one year each and any of the three will take permanent possession of the trophy if won another year.
